## ABOUT ME

Frontend Developer passionate about building interactive and user-friendly web applications using React JS and Tailwind CSS.

## PROJECTS

### Ecommerce Website

Developed an E-commerce Website using React for a dynamic user interface and Firebase for real-time database management and user authentication, enhancing shopping experiences with features like product search, cart management, and secure checkout.

### Job Portal

Created a Job Portal using React and Firebase, enabling users to search for jobs, apply online, and track applications, with features like user authentication, resume upload, and real-time notifications.
